Subject: Call with Alex, ahead of Bayer meeting

OCSPP staff advise that Bayer is coming in to express continued concern about the EU approach to maximum residue limits (MRLs), and general environmental regulation – i.e. the EU view on hazard-based versus EPA’s risk-based approach. OCSPP staff say that many of the big Ag companies are coming in to make sure EPA stays committed to our sanitary and phytosanitary (SPS) approach/policy and our risk assessment processes.

Alex Dunn is familiar enough with this topic that he declined a briefing paper. Lakita has reached out to OCSPP scheduler to find a time for you to hold a short call with Alex ahead of the Bayer meeting.
